

Safeguarding and Welfare Requirement: Health

Providers must keep a written record of accidents or injuries and first aid treatment.

6.3 Recording and reporting of accidents and incidents

Policy statement

We follow the guidelines of the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) for the reporting of accidents and incidents. For Child protection matters or behavioural incidents between children we use our incident forms and Safeguarding forms to record this on Famly.

Procedures

Our accident forms:

- are kept on child's file on Famly securely;
- ipads/computers are accessible to our staff and volunteers, who all know how to complete these forms; and
- are reviewed at least half termly to identify any potential or actual hazards.
- staff show the manager/deputy/senior a form before showing parents
- forms are always shown to parents on the day of the accident or incident via Famly
- when a child has suffered a head injury or bump to the head, parents are notified immediately, unless it is deemed to be a minor bump by management. The child is checked every 10 minutes for signs of concussion by the staff member treating the child
- parents are given a head bump form on Famly which gives information about concussion.

Reporting accidents and incidents

- Ofsted is notified as soon as possible, but at least within 14 days, of any instances which involve:
 - food poisoning affecting two or more children looked after on our premises;
 - a serious accident or injury to, or serious illness of, a child in our care and the action we take in response; and
 - the death of a child in our care.
- Local child protection agencies are informed of any serious accident or injury to a child, or the death of any child, while in our care and we act on any advice given by those agencies.
- Any food poisoning affecting two or more children or adults on our premises is reported to the local Environmental Health Department.
- We meet our legal requirements in respect of the safety of our employees and the public by complying with RIDDOR. We report to the Health and Safety Executive (HSE):
 - Any work-related accident leading to an injury to a member of the public (child or adult), for which they are taken directly to hospital for treatment.
 - Any work-related accident leading to a specified injury to one of our employee. Specified injuries include injuries such as fractured bones, the loss of consciousness due to a head injury, serious burns or amputations.

- Any work-related accident leading to an injury to one of our employees which results in them being unable to work for seven consecutive days. All work-related injuries that lead to one of our employees being incapacitated for three or more days are recorded on our accident forms.
- When one of our employees suffers from a reportable occupational disease or illness as specified by the HSE.
- Any death, of a child or adult, that occurs in connection with a work-related accident.
- Any dangerous occurrences. This may be an event that causes injury or fatalities or an event that does not cause an accident, but could have done; such as a gas leak.
- Information for reporting incidents to the Health and Safety Executive is provided in the Pre-school Learning Alliance's Accident Record publication.

Incident forms

- are kept on child's file on Family securely;
- ipads/computers are accessible to our staff and volunteers, who all know how to complete these forms;
- We have ready access to telephone numbers for emergency services, including the local police. Where we are responsible for the premises we have contact numbers for the gas and electricity emergency services, and a carpenter and plumber. Where we rent premises we ensure we have access to the person responsible and that there is a shared procedure for dealing with emergencies.
- We ensure that our staff and volunteers carry out all health and safety procedures to minimise risk and that they know what to do in an emergency.
- On discovery of an incident, we report it to the appropriate emergency services – fire, police, ambulance – if those services are needed.
- If an incident occurs before any children arrive, our manager/deputy risk assesses this situation and decides if the premises are safe to receive children. Our manager/deputy may decide to offer a limited service or to close the setting.
- Where an incident occurs whilst the children are in our care and it is necessary to evacuate the premises/area, we follow the procedures in our Fire Safety and Emergency Evacuation Policy or, when on an outing, the procedures identified in the risk assessment for the outing.
- If a crime may have been committed, we ask all adults witness to the incident make a witness statement including the date and time of the incident, what they saw or heard, what they did about it and their full name and signature.
- We keep an incident form for recording major incidents, including some of those that are reportable to the Health and Safety Executive as above.
- These incidents include:
 - a break in, burglary, or theft of personal or our setting's property;
 - an intruder gaining unauthorised access to our premises;
 - a fire, flood, gas leak or electrical failure;
 - an attack on an adult or child on our premises or nearby;
 - any racist incident involving families or our staff on the setting's premises;
 - a notifiable disease or illness, or an outbreak of food poisoning affecting two or more children looked after on our premises;

- the death of a child or adult; and
- a terrorist attack, or threat of one.
- Child protection issues/concerns
- In the incident forms we record the date and time of the incident, nature of the event, who was affected, what was done about it or if it was reported to the police, and if so a crime number. Any follow up, or insurance claim made, is also recorded.
- In the event of a terrorist attack, we follow the advice of the emergency services with regard to evacuation, medical aid and contacting children's families. Our standard Fire Safety and Emergency Evacuation Policy will be followed and our staff will take charge of their key children. The incident is recorded when the threat is averted.
- In the unlikely event of a child dying on our premises, through cot death in the case of a baby for example, the emergency services are called and the advice of these services are followed.

Common Inspection Framework

- As required under the *Common Inspection Framework*, we maintain a summary record of all accidents, exclusions, children taken off roll, incidents of poor behaviour and discrimination, including racist incidents, and complaints and resolutions.

Legal framework

- Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 1995 (As Amended)
